It is time that the American party in Kenhad begun in carnest to perfect their organi ration for the August election. There remain not but alx weeks before the day of election in which something altogether terrible was about to happen, something altogether terrible was about to happen. There was a stirring anticipation of thunder and Idood. No hery Democrat doubted for a moment that the Siyx or any other British shilp, found to have been guilty of bearding and detaining a ves to do all that is to be done to secure the triumph of afforded to redeem Kentucky from the foul stain of radical, ted-republican, rule-or-ruin Democracy and to place her once mora in the van of the stautch, sel, under the 1 .
